

Your first choice in Switzerland

Now also for the needs of hyperscalers

High-powered, secure and ecologically friendly: the new high-density data center with 12 megawatts of power will become operational in 2019.

- ▶ Multiple redundant carrier and power supply connections
- ▶ Certification in accordance with ISO 27001 and ISO 50001
- ▶ In the Zurich–Berne–Basel economic triangle
- ▶ With fully equipped workplaces

The new building with 12 megawatts of power

greenDatacenter Zurich West 3

Purpose-built data center building 30 kilometers/30 minutes from Zurich

3 600 m² High-density data center space and colocation zone

Complete FSA building (facility service area) with rest room, catering area, meeting rooms, room for minor repairs and cloakrooms

Office workspace: 600 m²

Storage areas and rooms for customers: 250 m²

Private rooms, private cages (starting at 20 m²) and colocation
